

Brazilian Economy ; Hires in the third quarter 2020

The third quarter accumulated more than 697 thousand new jobs, showing a good recovery after having 1.255 million lost jobs in the first half. Thus, September was the third month with an increase in jobs in Brazil since March 2020 due to the Covid-19 pandemic. The net balance between hired and fired workers was positive with 313,564 new vacancies in September (compared to 244,020 in August and 139,712 in July - updated data), showing economic activity recovery. These are the results of Caged. Results by states and economic sections are shown.
